

Product Information

Product Name: Process Modification Masterbatch

Product Code: 99-A-. . V2

Carrier Resin: PE

Masterbatch Type: Semi Opaque

Proper to use in: PE- PP

Description: Process Modification Masterbatch is designed to mix with Polyethylene and Polypropylene.

Benefits: It improves polymer processing and prevent elastic phenomena such as shark skin... also the mixing of the components including organic and inorganic powders can be improved in polymer matrix by adding the modification masterbatch.

Technical Data

Heat Stability: 27. °C

Use this masterbatch in 1% of weight.

Modification masterbatch includes no mineral filler.

Keep this product in dry place below 31 ° Centigrade
