

~~Processing aid masterbatch is designed to~~ mixing with polyolefins to reduce the cost of final product,

Product Information

Product Name: Processing aid Masterbatch

Product Code: 96-8-0-13

Carrier Resin: PE

Masterbatch Type: Semi Opaque

Proper to use in: Polyolefins

Use it up to 3 percentage.

Technical Data

Heat Stability: 260 °C

Keep this product in dry place below 40 ° Centigrade

dramatic reduction in power consumption, Improvement in optical properties, drop in the pressure on the device and the subsequent increase in machine longevity and reduce the time to change the color in color masterbatch.
