

## Product Information

Product Name: Red Masterbatch

Product Code: 001-370V

Carrier Resin: PE

Masterbatch Type: Opaque

Proper to use in: PE- PP

Description: Red Masterbatch is designed to mix with Polyethylene and Polypropylene to use for injection molding, blow molding and....

Benefits: It'll be completely solved in polymer. When the granules are mixed with polymer matrix and it has been molded, the final production has bright and shiny red color. Red masterbatch gives you a high level of opacity on the final production.

## Technical Data

Heat Stability: 270°C

Use this masterbatch in 1% of weight.

Red masterbatch includes mineral filler.

Keep this product in dry place below 40°C Centigrade
